FORMATIVE ASSESSMENT

HEALTH, SAFETY, QUALITY AND LEGISLATION

Module #	671101000-KM-01
NQF Level	level 4,
Notional hours	50
Credit(s)	Cr 5
Occupation Specialisation	or 671101000: Occupational Certificate: Electrician
Associated Occupation	671101: Electrician

About the Formative Assessment

Purpose	The purpose of this Formative Assessment is to evaluate learners understanding on the specific outcomes and/or assessment criteria and prepare the learner for the summative assessment. This will show that the learner is ready to be assessed.
Context	This assessment represents the Formative Assessment component and should be completed in the classroom/training room.
Resources	The following are resources needed for this assessment: 1. Learner Guide; and 2. Assessment Preparation.
Instructions to Facilitators	Facilitators will be required to: • Explain the completion of the Formative Assessment to each learner; and • Interview the learner on similar questions, should he/she not be able to write.
Instructions to Learners	Learners will be required to: • Complete the Formative Assessment as per the instructions. • Ensure that all questions are completed. • Ensure that the completion of the workbook is their own work. • Ensure that all annexures are attached to the workbook and clearly referred to;
Assessment Time	Learners are required to complete this assessment within the allocated time frame/hours.

ASSESSMENT APPEAL APPLICATION FORM

LEARNER'S NOTICE OF ASSESSMENT APPEAL

TO: The Internal Moderator

A meeting with the internal moderator is hereby requested to discuss the outcome of my assessment.

Internal moderator name _____

Date of submission: _____

Name of employee assessed: _____

Name of Assessor: _____

Date of feedback session: _____

Grounds for Appeal

No	Tick the applicable ground(s) for appeal	Tick
1	The assessment did not follow the laid down procedure	
2	Not all evidence available was taken into account during the assessment	
3	The assessor was not a subject matter expert nor was a subject matter expert present during the assessment process	
4	The assessment was not according to the performance criteria and the range statement stipulated in the unit standard	
5	Not all the range items were available for the assessment	

PRE-ASSESSMENT MEETING CHECKLIST

Points Assessor must cover in the initial meeting with the learner - Please tick

Item	Points to be covered	Tick
1	Welcome the candidate and put them at ease	☒
2	Explain the purpose of the meeting (why you are there and how long the meeting will take)	☒
3	Explain the ▪ NQF ▪ Credits ▪ Certification process ▪ Learning pathways	☒
4	Explain ▪ Who is involved in the assessment and their role (learners, coach, assessors, managers, moderators) ▪ Principles of assessment (fairness, confidentiality, validity, sufficiency)	☒
5	Explain the assessment process? ▪ Check learner readiness for assessment (logbook / self assessment) ▪ Assessment contract to be completed ▪ Preparation of learner (this meeting) ▪ The assessment (observation and knowledge questionnaire) ▪ Judgement of the evidence ▪ Outcome of assessment (competent, not yet competent, need further evidence)	☒
6	Give Learner copies of the following documentation and explain each document ▪ The Assessment Guide which includes ○ The relevant unit standard (s) ○ Assessment contract ○ Assessment plan ○ Observation checklist ○ Knowledge checklist	☒
7	Discuss the assessment plan (complete the assessment plan document) ▪ Allow the learner to participate in the decisions made ▪ Agree on dates, time and venue for the assessment and feedback ▪ Agree on evidence the learner can submit ▪ Agree and explain the assessment methods ▪ Identify and discuss special assessment needs of the candidate ▪ Identify and eliminate unfair barriers (language, disability etc) ▪ Discuss and agree on witness requirements	☒
8	Tell the candidate his/her rights and responsibilities, the assessment procedures and policies ▪ How many times they may be assessed ▪ Appeals process / procedure ▪ Reassessment policy	☒
9	Ensure the assessment environment is appropriate or make special arrangements	☒
10	Discuss moderation	☒
11	Allow the learner opportunity to clarify any items discussed	☒

LEARNING UNIT 1:
Safety, health, environment, risk and quality principles in the workplace

Learning Outcome 1:	KT0201 Legislation and regulations for workplace safety within electricity
Learning Outcome 2:	KT0202 Occupation health and safety legislation
Learning Outcome 3:	KT0203 Safety precautions and safe practices for working within industry
Learning Outcome 4:	KT0204 Personal protective equipment
Learning Outcome 5:	KT0205 Safety symbols and colour coding
Learning Outcome 6:	KT0206 Fundamentals of isolating and locking out equipment and circuits
Learning Outcome 7:	KT0207 Fundamentals of securing worksites
Learning Outcome 8:	KT0208 Protection devices
Learning Outcome 9:	KT0209 Causes, prevention and control of fires
Learning Outcome 10:	KT0210 Hazard identification and risk principles
Learning Outcome 11:	KT0211 Environmental, protection and pollution concepts
Learning Outcome 12:	KT0212 Basic first Aid
Learning Outcome 13:	KT0213 Incident reporting.
Learning Outcome 14:	KT0214 Evacuation procedures.

Task	Questions Description	Marks
1.	Identify and explain various types of personal protective equipment	10

~~Electrical Protection (hard hat / safety hat) - protects the head from falling objects and provide some insulating against electrical shock~~

Task	Questions Description	Marks
2	Identify and describe Safety signs in terms of associated risk and safe conduct	10

Red prohibition (must not do something)
e.g. no entry, danger

yellow warning Be cautious
risk moderate high

Blue mandatory must do something
e.g. wear PPE
Risk imminent if not followed

Green safe
emergency exit first aid
Risk low indicate safe measures

8

Task	Questions Description	Marks
4	Describe the regulations for the prevention and control of fires and the causes, effect and implication of fires	9

aspects

- ~~prevents~~ fire alarms extinguishers, evacuation

~~plants~~

- ~~control~~ fire resistant material, compartmentation

1 - Cause of fire

- ~~electrical~~ faults

- Arson

- ~~human~~ error

2 effects

- ~~injury~~ / death

- ~~property~~ damage

- ~~business~~ disruption

implication

- ~~legal~~ liability

- ~~financial~~ loss

- ~~Reputation~~ damage

lots procedure

- scope and purpose
- notification process
- Specific shutdown
- energy isolation
- Device Application
- Verification
- Maintenance
- Restoration
- Attenuation

Task	Questions Description	Marks
7	Explain and describe earthing	12

earthing (also called grounding)

what earthing means wire or metal rod

protection for human body is provided by earthing

To receive an electrical shock a person must become part of an electric circuit and current - must flow through body

so one needs to check earthing if its properly connected

have proper PPE which include

isolated shoes

isolated tools

safety gloves

~~If shutdown steps details instructions on how to properly shutdown the machine~~

~~- step by step~~

~~- Isolation steps clear directions on where and how to place locks and tags on energy isolation devices~~

~~- Verification A mandatory try out step to test the machine and confirm it can not be started~~

~~- Restoration steps A sequence for removing locks / tags and safely restarting the machine after work is done~~

~~- Group lock Rules : procedure for when multiple people are working on the same machine~~

~~- Communication protocol : Requirement for notifying affected employees before and after lockout~~

~~Both lockout procedures and work instructions are required by OHS Act to prevent Accident energising of equipment during maintenance. this prevents injury from unexpected energising of equipment~~

10

Name four classes of fire and their description

4

- Class A fires: these fires involving combustibles
e.g. wood, paper, rubber

Class B fires: flammable liquids
e.g. gasoline, oil, grease

Class C fires: energized electrical fire
e.g. electrical faults

Class D: combustible metal fires
e.g. magnesium, very high temperature fires

Interpreter required: Yes/No

Name: _____

Contact Number: _____

Was Employer informed of request for Assessment: Yes/No

Type of Assessment: Theoretical
 Practical

Recommendation for Assessment

The applicant has completed his/her training, has prepared for the assessment and is now ready to be assessed.

The ETDP Practitioner believe that the candidate is ready for the assessment because he has completed the relevant unit standard.

Have you received an application to assess the candidate? Yes

What assessment methods do you consider using? (observation, assignment, presentation, etc.) Explain method.

1. Written Assignment : Printed Questionnaire
2. Observation : As per Practical Assessment Guide
3. Interview : List of Questions as per Practical Assessment Guide after Practical Observation

What resources would you require to conduct the assessment?

1. Assessor toolkit
2. Theoretical assignment
3. Practical assessment
4. Learner toolkit

How would you sequence your activities? Explain

1. Record preparation process
2. Meet with group/candidate and explain assessment procedure – how you are going to conduct the assessment
3. Learner will write summative assessments
4. Conduct observation in workplace where applicable
5. Complete learner toolkit
6. Complete assessor toolkit
