Wire ways and wiring, FORMATIVE ASSESSMENT

Module #	671101000-KM-05:
NQF Level	level 4,
Notional hours	110
Credit(s)	Cr 11
Occupation Specialisation	or 671101000: Occupational Certificate: Electrician
Associated Occupation	671101: Electrician

Line

Purpose	The purpose of this Formative Assessment is to evaluate learners understanding on the specific outcomes and/or assessment criteria and prepare the learner for the summative assessment. This will show that the learner is ready to be assessed.
Context	This assessment represents the Formative Assessment component and should be completed in the classroom/training room.
Resources	The following are resources needed for this assessment: 1. Learner Guide; and 2. Assessment Preparation.
Instructions to Facilitators	Facilitators will be required to: • Explain the completion of the Formative Assessment to each learner; and • Interview the learner on similar questions, should he/she not be able to write.
Instructions to Learners	Learners will be required to: • Complete the Formative Assessment as per the instructions; • Ensure that all questions are completed; • Ensure that the completion of the workbook is their own work; • Ensure that all annexure are attached to the workbook and clearly referred to;
Assessment Time	Learners are required to complete this assessment within the allocated time frame/hours.
Total Mark	This formative assessment carries a total mark of _ points . In order to meet the pass mark, learners are required to achieve a minimum of 80% of the total marks.

Next steps for learning

Resources required for this assessment

Guidelines to the learner:

Learners Name: Lerato

Learner's signature: Mitima

Facilitator Name: _____

Date: _____

Facilitator's signature: _____

Date: _____

ASSESSMENT APPEALS PROCEDURE

1. A learner has the right to appeal under the following circumstances
 - If the laid down assessment procedures were not followed during assessments
 - If not all evidence available was taken into account during the assessment
 - The assessor was not a subject matter expert or did not have a subject matter expert during the assessment process
 - The assessor did not assess according to the performance criteria and range statement stipulated in the unit standard
 - Not all the range items were available for assessment

TO: The Internal Moderator

A meeting with the internal moderator is hereby requested to discuss the outcome of my assessment.

Internal moderator name _____

Date of submission: _____

Name of employee assessed: _____

Name of Assessor: _____

Date of feedback session: _____

Grounds for Appeal

No	Tick the applicable ground(s) for appeal	Tick
1	The assessment did not follow the laid down procedure	
2	Not all evidence available was taken into account during the assessment	
3	The assessor was not a subject matter expert nor was a subject matter expert present during the assessment process	
4	The assessment was not according to the performance criteria and the range statement stipulated in the unit standard	
5	Not all the range items were available for the assessment	

PRE-ASSESSMENT MEETING CHECKLIST

Points Assessor must cover in the initial meeting with the learner - Please tick

Item	Points to be covered	Tick
1	Welcome the candidate and put them at ease	
2	Explain the purpose of the meeting (why you are there and how long the meeting will take)	
3	Explain the ▪ NQF ▪ Credits ▪ Certification process ▪ Learning pathways	
4	Explain ▪ Who is involved in the assessment and their role (learners, coach, assessors, managers, moderators) ▪ Principles of assessment (fairness, confidentiality, validity, sufficiency)	
5	Explain the assessment process? ▪ Check learner readiness for assessment (logbook / self assessment) ▪ Assessment contract to be completed ▪ Preparation of learner (this meeting) ▪ The assessment (observation and knowledge questionnaire) ▪ Judgement of the evidence ▪ Outcome of assessment (competent, not yet competent, need further evidence)	
6	Give Learner copies of the following documentation and explain each document ▪ The Assessment Guide which includes ○ The relevant unit standard (s) ○ Assessment contract ○ Assessment plan ○ Observation checklist ○ Knowledge checklist	
7	Discuss the assessment plan (complete the assessment plan document) ▪ Allow the learner to participate in the decisions made ▪ Agree on dates, time and venue for the assessment and feedback ▪ Agree on evidence the learner can submit ▪ Agree and explain the assessment methods ▪ Identify and discuss special assessment needs of the candidate ▪ Identify and eliminate unfair barriers (language, disability etc) ▪ Discuss and agree on witness requirements	
8	Tell the candidate his/her rights and responsibilities, the assessment procedures and policies ▪ How many times they may be assessed ▪ Appeals process / procedure ▪ Reassessment policy	
9	Ensure the assessment environment is appropriate or make special arrangements	
10	Discuss moderation	
11	Allow the learner opportunity to clarify any items discussed	

Complete the following questions as per instructions provided

Ln

damage or impact

3 Number and size cable - the wireway must be large enough to accommodate the required cable with overcrowding

4 Accessibility and maintenance it should allow easy inspection, installation and future maintenance of cables

5 Cost and type of installation - the choice depends on installation requirement and the cost of material

6 Compliance - adherence to some local regulations to ensure safety penalties and avoid safety penalties

7 Safety - fire resistance material secure fixing and also accessible design to reduce risk

8 Cable type wireways must fit cables compatibility allow for bending and accommodate future additions

9 Maintenance allow safe access

10 Installation - space constraints cable and ease of pulling effect wireway choice

Task	Questions Description	Marks
3	Describe the purpose of load distribution, lightning arrestors and energy control units.	5

1. Load distribution - ensure that electrical load are evenly shared between circuit or phase to prevent overloading and improve system efficiency
2. Lightning arrestors - protect electrical installation by diverting high voltage caused by lightning safely to earth preventing damage equipment
3. Energy control units - monitors and control the amount of electrical energy cost and prevent overload

1. Load distribution

- The purpose of load distribution is to allocate electrical power efficiently among various consumers or devices in a system to ensure a balanced load

2. Lightning arrest

- the purpose of lightning arrest is to protect devices and people of electricities
- they direct the excessive surge current to the ground

Energy control units - monitors and control the amount of electrical energy cost and prevent overload

Task	Questions Description	Marks
4	Explain the various processes of measuring, testing and calculating earthing and bonding system values.	5

1 Continuity testing test are carried out to ensure that earthing/bonding conductors are properly connected throughout the system

2 earth election resistance measurement an earth tester it is used to measure the resistance between earth electrodes and ground

3 earth loop impedance test - measures the impedance of earth fault loop to confirm that enough fault current will flow

4 Visual inspection - All earthing and bonding conductors are checked

5 Calculation of value - resistance and impedance value are calculated by using test result

ASSESSMENT FEEDBACK REPORT

FACILITATOR FEEDBACK & REMARKS

Well done

ASSESSMENT JUDGEMENT

Learner's Total Mark: 90% Requirements met ☒

Requirements not met ☐

Action/s required:

By when:

LEARNER FEEDBACK & COMMENTS

DECLARATION BY THE FACILITATOR

I RUTH NYAKALA (Facilitator) hereby certify that I have examined the learner workbook and I am satisfied with the evidence provided by the learner.

Application for Assessment

First Attempt ☐ Second Attempt ☐ Third Attempt ☐ RPL ☐

Observer/Witness required: Yes/No

Name: _____

Contact Number: _____

Interpreter required: Yes/No

Name: _____

Contact Number: _____

Was Employer informed of request for Assessment: Yes/No

Type of Assessment: Theoretical

Practical

Recommendation for Assessment

The applicant has completed his/her training, has prepared for the assessment and is now ready to be assessed.

The ETPD Practitioner believe that the candidate is ready for the assessment because he has completed the relevant unit standard.

Assessment Planning

	<u>Theory</u>	<u>Practical</u>
Date of assessment:		
When would be the best time for the Assessment?	9H00	9H00

Have you received an application to assess the candidate? Yes

What assessment methods do you consider using? (observation, assignment, presentation, etc.) Explain method.

1. Written Assignment : Printed Questionnaire
2. Observation : As per Practical Assessment Guide
3. Interview : List of Questions as per Practical Assessment Guide after Practical Observation

What resources would you require to conduct the assessment?

1. Assessor toolkit
2. Theoretical assignment
3. Practical assessment
4. Learner toolkit

How would you sequence your activities? Explain

1. Record preparation process
2. Meet with group/candidate and explain assessment procedure – how you are going to conduct the assessment
3. Learner will write summative assessments
